Everyone is complaining about this dlc for the lines, the fact that it isn't free, the fact that Duke has no place in this universe, yadda yadda, whatever. I would give this a thumbs down if it was done poorly, but it isn't, it's exactly what I expected and what is advertised on the store page. Jon St. John is great, the lines are good, I mean yeah, they changed only the protagonist's lines, while everyone else says the same things and that's the beauty of it, you take this serious script and add Duke's nonsense, I just love this, makes me laugh, sue me. Also the price is fine, while this isn't a full conversion or anything, the quality for what it does stands up, they put in the work, they called a VA, they made him record some lines, they put a new model in with animations and put Duke's brand on it. So how much I paid for this work? 1,24 Euros on sale. What the hell are these entitled people u2665u2665u2665u2665u2665ing about? Ahh whatever, I'm having a blast with this. Thanks for this DLC, not a big fan of the game, but I'm definitely enjoying it now..
